

# TANIN CRISTALLIN™

## TANINS

### Hydrolysable tannin

#### ↓ OENOLOGICAL APPLICATIONS

**TANIN CRISTALLIN™** reinforces the antioxidant power of sulphur dioxide and completes its antiseptic effect. Depending on when it is added, it helps to clarify.

Thanks to its composition and finesse, it does not add astringency to white wines.

What's more, it gives them greater structure and a better aptitude for ageing.

#### ↓ INSTRUCTIONS FOR USE

- Powder:

Dissolve **TANIN CRISTALLIN™** in 10 times its weight in very hot water. Incorporate the resulting solution into the wine during pumping over or preferably using a fining device.

- 10% aqueous solution :

Incorporate into the wine and homogenise in the same way.

#### ↓ DOSE RATE

- Powder: 2 to 6 g/HL.
- 10% aqueous solution: 2 to 6 cL/HL.

N B: These doses are given as a guide only.

It is always advisable to carry out a preliminary laboratory test.

#### ↓ PACKAGING AND STORAGE

- In powder form: 1 kg, 12.5 kg
- 10% aqueous solution: 10L

Store in a dry, well-ventilated, odour-free place at a temperature between 5 and 25°C.

Once opened, the product must be used quickly.
